## About our speaker

*Fr Francis Ching is from the Order of Companions of the Cross in Canada, and is passionate about youth ministry and evangelisation. He is also the spiritual director for ECCCLC (Eastern Canada Chinese Catholic Living Camp)*

How are you fitting into the "world" as disciples of Christ?

How can you evangelise to those around you whilst the "world" is constantly at odds with our Christian values?

Often when we talk about God's love and the Good News, it does not seem to get across to others or even to ourselves. It is because the message is empty, unless we can experience it. God created the Church not only to send out messages, but it is meant to be a community for us to come together to experience God and to practise the love of God with each other. ***God is relational and wants us to experience Him.*** At this retreat with Fr Francis Ching, we will dive into this experience, as well as examine how we can help others to do so. There will be healing prayer, daily mass, Praise and Worship as well as Adoration and Reconciliation on Friday night.

Ages: 18 - 40 are welcome.
